

## SHEFFIELD-SHEFFIELD LAKE CITY SCHOOLS INTERDISTRICT ENROLLMENT PROGRAM

The Sheffield-Sheffield Lake Board of Education believes that certain students, under prescribed circumstance, can benefit from an Interdistrict Enrollment Program. As a result, the Board of Education has developed the Sheffield-Sheffield Lake City Schools Interdistrict Enrollment Program.

Guidelines for students transferring to the Sheffield-Sheffield Lake City School District under this program are as follows:

1. Applications for Interdistrict transfer of students to the Sheffield-Sheffield Lake City School District must be made to the Board of Education on the official Sheffield-Sheffield Lake City Schools Application for Admission Form.
2. A separate Application for Admission **must** be submitted for each child.
3. Upon approval or denial of admission to the Interdistrict Transfer Program, the applicant and superintendent of the adjacent District will be notified.
4. The Sheffield-Sheffield Lake City School District reserves the right to determine building assignment for each Interdistrict student transfer.
5. Applications for Interdistrict enrollment will be considered in the order received.
6. The Sheffield-Sheffield Lake City School District reserves the right to grant priority to Sheffield-Sheffield Lake residents.
7. Interdistrict transfer students enrolled in the Sheffield-Sheffield Lake City School District will be subject to annual review to determine eligibility (i.e. enrollment approval for any one year does not guarantee approval for any subsequent enrollment period).
8. Application for Interdistrict enrollment will be accepted for no less than one full year.
9. Applicants may be rejected should racial balance or either district becomes negatively impacted.
10. Applicants may be rejected if certain special education services are not available in the Sheffield-Sheffield Lake City School District.
11. The Sheffield-Sheffield Lake City School District will not institute any special education program to specifically serve Interdistrict transfer students.
12. Special education classes will be capped at state mandated minimum numbers.
13. The Ohio High School Athletic Association eligibility guidelines will be applied to the program.
14. Applicants may be rejected if they have been suspended or expelled for ten (10) or more consecutive days.
15. Under Section §3327.01 of the Ohio Revised Code, the Sheffield-Sheffield Lake City School District shall offer transportation to non-resident Interdistrict transfer students from an existing bus stop within the boundaries of the Sheffield-Sheffield Lake City School District only. (Transportation from outside of the Sheffield-Sheffield Lake City School District to a bus stop within the Sheffield-Sheffield Lake City School District is the responsibility of the parent/guardian of the child.)
